

Surface scarifier and milling machine LTFR-200

A robust scarifier, designed down to the last detail, with a cutting width of 200 mm, precision depth control and fast milling drum lift. Changing the milling drum is simple and requires no special tools.

Perfect for use on smaller surfaces and in residential buildings; for renovation or new buildings, for repair and maintenance work.

A suitable up-to-the-edge milling attachment is available as a special accessory.

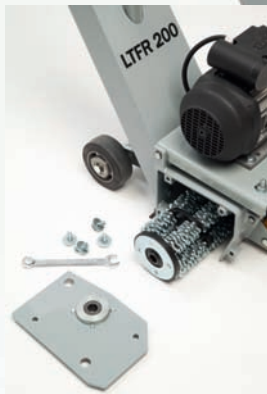

An excellent price/performance ratio.

Two models are available: 230 V/400 V

Simple change of milling drum

Technical data

2 engine models	230 V/400 V
Fuse	16 A
Power	2.2 kW
Drum speed	1930 rpm
Weight	65 kg
Dimensions	1165 x 1280 x 330 mm
Cutting width	200 mm

Dust extraction nozzle suitable for hoses
Ø 50/45 mm

Scope of delivery: scarifier complete
with 1 standard milling drum
HML 5/45/15

Edge milling piece, tools and accessories

Surface scarifier and milling machine LTFR-200

Standard milling drum equipped with HML 5/45/15 carbide cutters with soldered carbide tips for removing concrete and screed, tile adhesive and sealants. Also for cleaning incrustated surfaces.

Achieves a rough surface structure, very good prepping rate, normal service life

Alternative:

Milling drum equipped with HML 6/45/15 carbide cutters with soldered carbide tips for keying concrete, removing screed, tile adhesive, sealants.

Achieves a somewhat smoother surface structure, higher service life

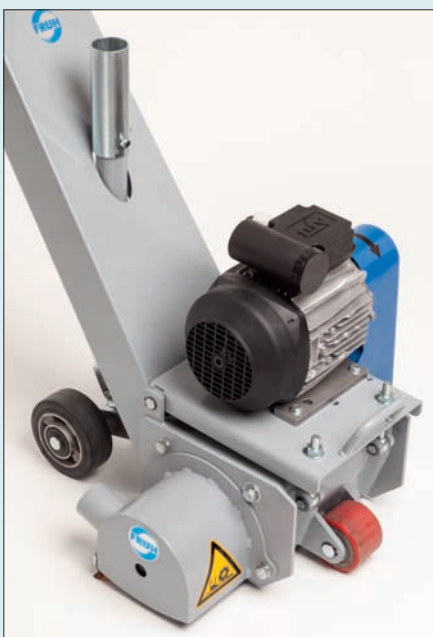

Milling drum equipped with HMF 5/40/15 carbide cutters with solid carbide blades for peeling off filler, adhesive, coatings, waterproofing.

Edge milling drum HML 6/45/15

Edge milling drum HMF 5/40/15

A milling tool which allows completely up-to-the-wall work, (safety distance 2 mm) is available as an add-on kit for the **LTFR-200**.

Subject to technical alterations and errors
