

# EFS 180 E with swivel motor

## Use with the V600 power trowel

### Areas of use:

For compacting and planing screeds, concrete flooring, industrial screeds and design screeds on small to medium-sized surfaces in residential building work and for repairing surfaces in industrial areas.

**Advantage:** using the centre adjusting screw, the working angle of the plastic or metal trowels can be adjusted according to the mortar material used in order to achieve an optimum surface quality.
