

Planing and grinding machine

EFS 180 E without chassis

The advantages

- Automatic start interlock to prevent the machine being switched on unintentionally
- Infinitely variable speed control
- Double strain relief, 15 m tear-resistant cable
- Clamp lever for infinitely adjustable guide handle
- Maintenance-free, long-life belt drive

The universal standard machine **EFS 180 E** without a chassis is suitable for planing a whole range of mortar surfaces.

Depending on the tool used this machine is suitable for compacting and planing screeds, for planing epoxy resin mortar and for applying sand or other floor hardeners.

Brushes, milling or grinding discs can also be mounted as required.

Tools and accessories EFS 180 E without chassis

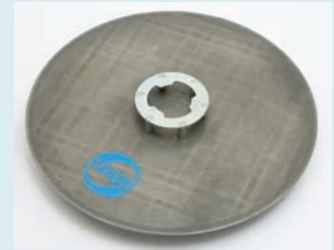

Grinding plate Ø 400 mm with flexible base for double-sided sand paper and carbide grinding discs

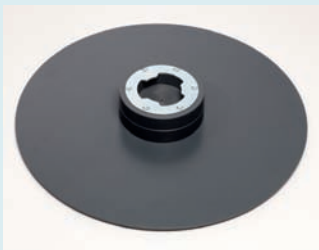

Grinding ring, grit 16, Ø 400 mm for grinding coarse screed and concrete surfaces

Flat wire steel brush (oil hardened), Ø 400 mm: for cleaning concrete floors and paving stones, for applying primer

Steel planing disc Ø 600 mm: for compacting, planing and levelling screed, concrete, etc.

Plastic planing disc Ø 600 mm: for compacting and planing epoxy resin screed and light-coloured mineral screeds

Planing disc, Ø 600 mm, with 8 hardened steel trowels

Trowel disc Ø 600 mm: with metal or plastic blades for planing anhydride and cementitious screeds and concrete.

Wooden based grinding disc Ø 400 mm, for rubbing poured asphalt

Diamond drive plate, buffered, Ø 400 mm, for various tools, e.g. with 3 double-rowed diamond cup wheels, Ø 125 mm, for keying concrete, screed, etc.

Technical data

Power	1.5 kW
Speed	60 - 180 rpm, infinitely variable
Weight	22.5 kg (without accessories)
Voltage	230 V/50 Hz AC
Protection	Class I appliance according to VDE

Ø machine	430 mm
Ø tool	400 - 600 mm
Height	gear unit 100 mm motor 220 mm

Scope of delivery

Machine complete with guide handle, 15 m tear-resistant safety cable, start interlock
